Wailuku, July 1. - The schooner Alice Kimball which has been lying on the Kahului beach ever since May 19, was floated off at high tide today,

employed about ten natives to work on the schooner's windlass with big hawsers attached to the buoys in the harbor. The natives commenced working yesterday at high tide and the ves-sel was moved over 200 feet over the coral reef towards deep water. Today at high tide another attempt was made and the schooner is now free and will be able to sail to Honolulu for necessary repairs as soon as her sails are ready. It may be remembered that the wreck of the Alice Kimball was condemned by a board of survey consisting of three captains from the foreign merchant vessels, then in port, and it was owing to their report that Capt. Clarke superintendent of the Wilder-S. S. Co. recommended selling the vessel at public auction for the benefit of the underwriters.

When you take a life insurance policy you want absolute protection, aside and distinct from your investments and speculations.

You do not want the life insurance company to put your money in a sugar plantation in which you have already invested. If the sugar plantation falls your life insurance policy fails of its purpose. If you want to leave all your money in the Islands, invest it your-self: If you want life insurance put it in a good company, incorporated un-der the laws of a State which does not permit a life insurance company to speculate in stocks or to loan the policy holders' money on wheat and corn fields. The Germania Life In-surance Co. of New York has more assets for each \$1000 of insurance in force than any other company in the World
